**DESCRIPTION**  
Principia Gravel 30 captures the best of MTB, Cyclocross, and Road biking—so you can follow your impulses. Ride fast on the road, take a detour through the forest trail, and race home on the gravel path. The Principia Gravel 30 is your companion all year round. In short, gravel riding sets no limits.  
**NEW FOR 2026:** We've streamlined the design, hidden all cables, and smoothed out all visible welds on the frame, giving the bike a cutting-edge look. We know how much you love admiring your bike—so it should look great. The model is equipped with Shimano GRX, a groupset dedicated to gravel riding. Shimano GRX is optimized for gravel in terms of gearing, ergonomics, durability, stability, and more. The Gravel 30 comes with mounts for fenders and a rear rack. It also features multiple mounting points for bags and accessories, making it ideal for bikepacking adventures.
