Meet the new Principia Gravel C20 – a gravel bike that combines advanced technology with superior performance. Built on a stiff and lightweight carbon frame, this bike is designed to deliver maximum stability and agility when it really matters. Whether you're chasing Strava segments or enjoying the adventure on the gravel path, the Gravel C20 will give you a confidence-inspiring riding experience. The integrated cable routing enhances aerodynamics and gives the bike a sleek and elegant look. Equipped with Shimano GRX820 2x12sp, you get the latest technology specifically developed for gravel, ensuring precision and reliability on all your rides.

GROUPSET

SHIMANO GRX

Shimano GRX is a newly developed groupset, specifically designed for gravel bikes. With its gravel-specific ergonomics, optimized gears, robustness and stability, Shimano GRX is ready to tackle any obstacle. Shimano GRX ensures a revolutionary riding experience, where you're always in absolute control - exactly how it should be.

TIRES

PANARACER GRAVELKING SK

Panaracer GravelKing SK is made for speed on even the roughest of terrains. A combination of an aggressive tread, natural rubber compound and puncture resistance create the base for a high quality tire. GravelKing SK has a very strong grip on loose gravel, but the comfort remains. Despite hardcore offroad properties, GravelKing SK handles asphalt easily with minimal tire noise.
